

Frequently Asked Questions

Window Security

'Turkington Secure' Windows

At Turkington we are focused on bringing our customers the best windows and doors on the market. Our windows are 'A' Rated to keep the heat in, and our 'Turkington Secure' windows are also designed to enhance your home's security. In order to produce our bespoke 'Turkington Secure' windows, we ensure we use of the best of locks, frames, glass, installation and design options.

Locking Gear

We use high security multi-point locking on all our sashes. All our window locks include shoot-bolt corner locks.

Glass Types

At Turkington we have the glass that suits your home.

This includes our 'Turkington Secure' Anti-Bandit 6.8mm laminated outer pane. This is

designed to absorb impact and protect your home against unwanted guests.

Accredited Installation

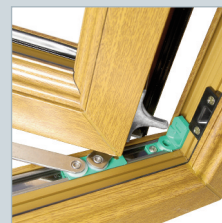

Our windows are bolt fixed, foamed, sealed and trimmed to Glass and Glazing Federation installation standards. This means that every window is securely installed.

** Specifications may vary.*

Superior Robust Reinforced Frames

Our multi-chambered frames are steel reinforced for robust strength and security as standard.

Additional Locking

Our windows also come with hinge claw locking as standard. This prevents windows being forced open on the hinge side.

Internally Glazed

We glaze from the inside of your home. This means that the glass unit cannot be removed from the outside.

Design Options

Our experienced representatives can offer you solutions to help minimise the risks to your home. This includes help with window layouts, glass options, door choices and the like.

Frequently Asked Questions

Door Security

'Turkington Secure' Doors

A Turkington installed door will add style, security and comfort to your home. Our range of elegant, high performance exterior doors will protect your home for many years without the need for regular maintenance. We have a variety of styles, glazing options and colours tailor-made to suit your home and budget.

All doors are fully reinforced and come with high security anti-pick, anti-bump and anti-snap locking as standard. Our range includes uPVC doors, reinforced panel doors and a range of traditional and contemporary composite doors.

Locking System

Multi-point locking system is fitted as standard.

Flag Hinges

Flag hinges are fitted to all double rebated doors to allow for adjustment.

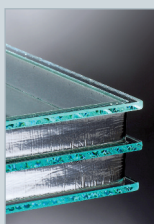

Coupling Bar

Sidelights are coupled with aluminium bar for greater security, rigidity and stability.

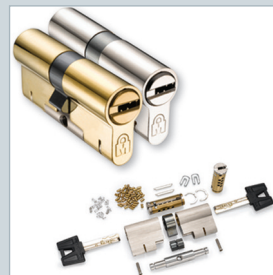

Locking System

Typically we use 2 rollers, 3 hooks, 2 deadbolts and 1 latch. Our high security system protects your family from intruders.

Glazing Units

Our doors have double or triple glazed units and are internally glazed without exception preventing easy access.

Kitemark Cylinder

Anti-bump, anti-drill, anti-pick and anti-snap Kitemarked cylinder lock barrels are fitted as standard on all composite doors.
